Turbo Slim Compact Battery a new battery pack to complement the existing Turbo range. It will power flash units only and uses existing C & CC type cables.

- Weighs only 15 oz
- 5.14x3.6x1.3 inch, 13x9.1x3.3cm
- 1.4 sec & 400 full power flashes with 6v flash units (shoe mount)
- 3 sec & 225 full power flashes with Qflash
- charges in 1.5 hours
- compatible with all existing Turbo C & CC series cables
- detachable belt clip

Qflash 5d-R is the latest up-graded version of the powerful Qflash 4d & 5d flash series.

- Wireless integration with Canon & Nikon camera systems up to 500ft (using the Quantum FreeXWire system)
- Full wireless use of manual, TTL, Auto, Auto-Fill & TTL Ratio
- Adds AutoFill feature to Olympus, Hasselblad H1/2, Contax & Mamiya cameras
- Same function, operation and appearance as previous Qflash 4/5d models, which can be up-graded
- Complements Canon's & Nikon's own flash units and IR system

QNexus is a new receiver dedicated to the QFlash 5d-R series to facilitate seamless integration with Nikon & Canon wireless IR command features!

- receives commands from Nikon & Canon wireless IR codes from up to 200 ft
- allows full integration of Qflash 5d-R models with Nikon/Canon camera/flash system

FW25 mounts the FW9T FreeXWire transmitter to camera or camera bracket

QF69 a new mini folding softbox with hotspot remover for perfectly soft and even close-up work. Folds flat for easy storage. Fits ALL Qflash models.

QB60 leather shoulder strap for Turbo, TurboZ, Turbo2x2, QB1, QB1+ and QB2 battery packs.
